

SOURABH BHAKAR

Gurugram, Haryana, India ♦ +91 8307802850 ♦ bhakarsoursbh@gmail.com ♦ Portfolio — LinkedIn — GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of hands-on experience building and shipping production-ready applications using React.js, Next.js, Node.js, TypeScript, and MongoDB. Experienced in developing REST APIs, authentication/RBAC systems, dashboards, payment integrations, AI-powered features, and scalable web applications. Delivered production features and improved application performance by up to 35% through code refactoring and optimization. Strong focus on clean architecture, performance optimization, debugging, and delivering end-to-end features.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Material UI, Responsive Design, UI/UX Development

Backend: Node.js, Express.js, NestJS, Python (FastAPI), REST APIs, WebSockets, MongoDB, PostgreSQL, Firebase

AI & Integrations: AI Chatbot Development, Gemini API, AI/LLM Integration, Third-Party API Integration, Payment Gateway Integration

Tools & Platforms: Git, GitHub, GitLab, Docker, npm, Postman, Agenda.js, Nodemailer, VS Code, CI/CD, Playwright

Other: JWT Authentication, RBAC, API Development, Database Management, Bug Fixing, Performance Optimization, Agile Methodology, SEO Optimization

PROFESSIONAL EXPERIENCE

MERN Stack Developer

Lawyered, Gurugram

Jan 2026 – Present

- Develop and maintain production web applications and admin dashboards using React.js, Next.js, TypeScript, Node.js, Express.js, NestJS, MongoDB, MySQL, and PostgreSQL.
- Developed and integrated an **AI-powered legal chatbot** into the Lots247 dashboard, reducing manual legal query handling by 40% and improving the product experience.
- Designed and developed backend REST APIs using **NestJS and Node.js**, implementing application business logic and integrating APIs with frontend modules, cutting API response time by 25%.
- Worked extensively on **product UI/UX**, designing and implementing 15+ new interfaces, layouts, reusable components, and UI improvements across web applications and dashboards.
- Developed and enhanced dashboard features, data flows, authentication modules, and role-based access control (RBAC) functionality, improving access security and reducing unauthorized access incidents to zero.
- Identified and resolved 50+ frontend and backend bugs, debugging application issues and improving overall product stability, reliability, and user experience by 30%.
- Integrated third-party services and APIs while maintaining scalable and maintainable application architecture, reducing integration time by 20%.
- Used Docker for application and development environments and collaborated with cross-functional teams to deliver features, UI updates, and product improvements.

MERN & Next.js Developer

Jaikvik Technology, Noida

Oct 2024 – Nov 2025

- Developed scalable web applications using the MERN stack and Next.js with TypeScript and modern UI libraries, improving page load speed by 35%.
- Built responsive dashboards and web interfaces with secure authentication and third-party API integrations, serving 2,000+ concurrent users.
- Developed and integrated REST APIs and implemented frontend-backend data flows for application features, reducing data fetch latency by 30%.
- Improved application performance by refactoring code and adopting reusable components and modular architecture, decreasing code duplication by 40%.
- Debugged and resolved 40+ application issues across frontend and backend, improving reliability and maintainability.
- Collaborated with cross-functional teams in an Agile environment to deliver new features and product enhancements, shipping 20+ features on schedule.

PROJECTS

AI Legal Chatbot – Lots247

2026 – Present

- Developed and integrated an **AI-powered legal chatbot** into the Lots247 dashboard for legal AI use cases.
- Built chatbot-related frontend interfaces and integrated them with backend services and APIs.
- Developed and maintained backend APIs using **NestJS and Node.js, Python** to support chatbot and product functionality.
- Worked on chatbot UI/UX, dashboard integration, conversation workflows, and overall product experience, improving user engagement by 25%.
- Debugged and resolved frontend and backend issues while improving chatbot reliability and application usability.
- Integrated AI capabilities into the existing product architecture while maintaining scalable and maintainable code.
- **Tech:** Next.js, TypeScript, Node.js, NestJS, REST APIs, AI/LLM APIs

HyGlam – Beauty Services Platform

2025 – Present

- Built and deployed a production-ready beauty services platform using **React.js and Node.js**.
- Implemented secure authentication and **role-based access control (RBAC)** for customers and super admins.
- Developed end-to-end appointment booking workflows with salon and customer management features, processing 200+ bookings per month.
- Integrated **Razorpay payment gateway** and automated email notifications for platform transactions and bookings, achieving 99% transaction success rate.
- **Tech:** React.js, Node.js, FastAPI, Python, MongoDB, Tailwind CSS, Razorpay
- **Live:** hyglamofficial.com

EDUCATION & CERTIFICATIONS

Bachelor of Science

2021 – 2024

Choudhary Bansilal College, Loharu

MERN Stack Diploma

2023 – 2024

DUCAT, Gurgaon
